ROYAL

ROYAL

★

DR. PRICE'S CREAM BAKING POWDER

is the only brand upon which the United States and Canadian Governments have ever made a favorable report.

Dr. Price's Cream Baking Powder

is the only Baking Powder that does not contain Ammonia, Lime, or Alum.

We better proof of the purity, strength and healthfulness of DR. PRICE'S CREAM BAKING POWDER and SPECIAL FLAVORING EXTRACTS can be offered than that they are recommended for general family use by the following Heads of the great Universities and Public Food Analysts of the United States and Canada:

★The Baking Powder indicated by the star in the above diagram contains Ammonia and Lime. Test—Place a can, top down, on a hot stove all heard, remove the cover and smell—Ammonia. Ammonia is poisonous.

NOTE.—Other brands of baking powder, indicated by the above black bars, were examined and reported upon by the Government chemists, but out of commercial courtesy we refrain from publishing their names.

THE GOVERNMENT TESTS.

Royal Baking Powder is Superior to All Others in Strength and Purity.

Certified Extracts from the report of Hon. E. Miall, Commissioner, and Professor William Saunders, F. R. S. C., Public Analyst, Inland Revenue Department, Ottawa, Canada, pages 4, 10, 11:

"Eight samples of baking powder have been analyzed; six were found to be adulterated, the proportion of adulterant varying from 10 to 60 per cent. The other two consisted of a mixture of bicarbonate of soda and pure cream of tartar without any adulterant."

"Royal. Result of analysis: contains cream of tartar, carbonate of soda; pure."

"Price's. Result of analysis: contains matter insoluble in water 14.16 per cent, consisting of starch and tartrate of lime; adulterated."

"The Royal Baking Powder is absolutely pure. It is undoubtedly the purest and most reliable baking powder offered to the public." "Dr. Hanor A. Mott, Ph.D., U. S. Government Chemist."
